Objective:

A third-year B. Tech Computer Science and Engineering student at VIT Vellore, seeking an internship or project opportunity to leverage my technical skills and gain industry experience.

Education:

Bachelor of Technology in Computer Science and Engineering

VIT Vellore, TN   2022-26

Skills:

Programming Languages: Java, C++, JavaScript
Web Development: HTML, CSS, React, Express.js
Databases: SQL, MongoDB
Scripting: Shell Scripting

Experience:

Web Development Intern
National Informatics Centre (NIC), Patna   June 2, 2024 – July 1, 2024

Developed the MWRD Inspection Web Application to streamline inspection processes for the Minor Water Resources Department (MWRD).

Designed key components: Home Page, DM Login, Official Login, Report Section, and Contact Section.

Used Microsoft Visual Studio, HTML, Bootstrap, C#, .NET Framework, and SQL.

Enhanced skills in web development, agile practices, and project documentation.

Projects:

Simon Game : https://github.com/rajwithcodes/Simon-Game

A web-based game created using HTML, CSS, and JavaScript that mimics the classic Simon memory game.

Amazon Frontend Clone: https://github.com/rajwithcodes/Amazon-clone

Developed a responsive frontend clone of Amazon using HTML and CSS, focusing on replicating the layout and design.

Key-Logger: https://github.com/rajwithcodes/keyLogger

This project is a simple JavaScript application designed to monitor and log keyboard events. The main functionality includes starting and stopping the logging of key presses and displaying the state of the key (whether it is pressed down or released) on a webpage. Here's a detailed description of its components and functionality.
